## SKILLS

- **Languages:** C, C++, python, JavaScript,
- **Frameworks:** HTML and CSS, Bootstrap, NodeJS, React
- **Tools/Platforms:** MySQL, MongoDB, GitHub, Microsoft Excel, Vs code
- **Concepts:** Full-stack Development
- **Soft Skills:** Problem-Solving Skills, Team Player, Project Management, Adaptability

## EXPERIENCE

### Wavefare Delights (Startup Development)

Dec 2023-Mar 2024

- Collaborated with a five-member team to ideate, develop, and pitch a food-based e-commerce startup.
- Designed and launched a full-stack responsive website with user authentication and payment integration.
- Presented the project during a university innovation expo and successfully secured institutional funding.

## PROJECTS

### Student management system | Full stack web Development

Jun 2024 - Aug 2024

Developed a web-based Student Management System to streamline student data management, including registration, attendance tracking, and grade management. Designed and implemented RESTful APIs, a dynamic frontend UI, and secured authentication.

**Tech:** HTML, CSS, Javascript, MySql, NodeJs

### Expense Tracker | Full-stack web Development

Jun 2024 - Aug 2024

Built a web-based Expense Tracker to help users manage and track their finances, with features like income/expense categorization, real-time analytics, and data visualization. Developed RESTful APIs, secured authentication, and designed a responsive UI.

**Tech:** HTML, CSS, Javascript, MySql, NodeJs

### Wave fare delights website

Dec 2023-Mar 2024

Collaborated on a team startup project to develop a fully functional e-commerce website for food ordering. Contributed to the implementation of essential features such as product listings, cart functionality, and Razorpay integration for seamless online payments. Successfully demonstrated the platform at a university project expo, receiving positive feedback and securing project funding of ₹20,000.

**Tech:** React, Node.js, MongoDB, Bootstrap.
